300+ ANSI Lumens	4K Supported	150" Screen Size	Auto Focus
Stereo Sound	Keystone Correction	Android TV 9.0	Multi-Port Connectivity

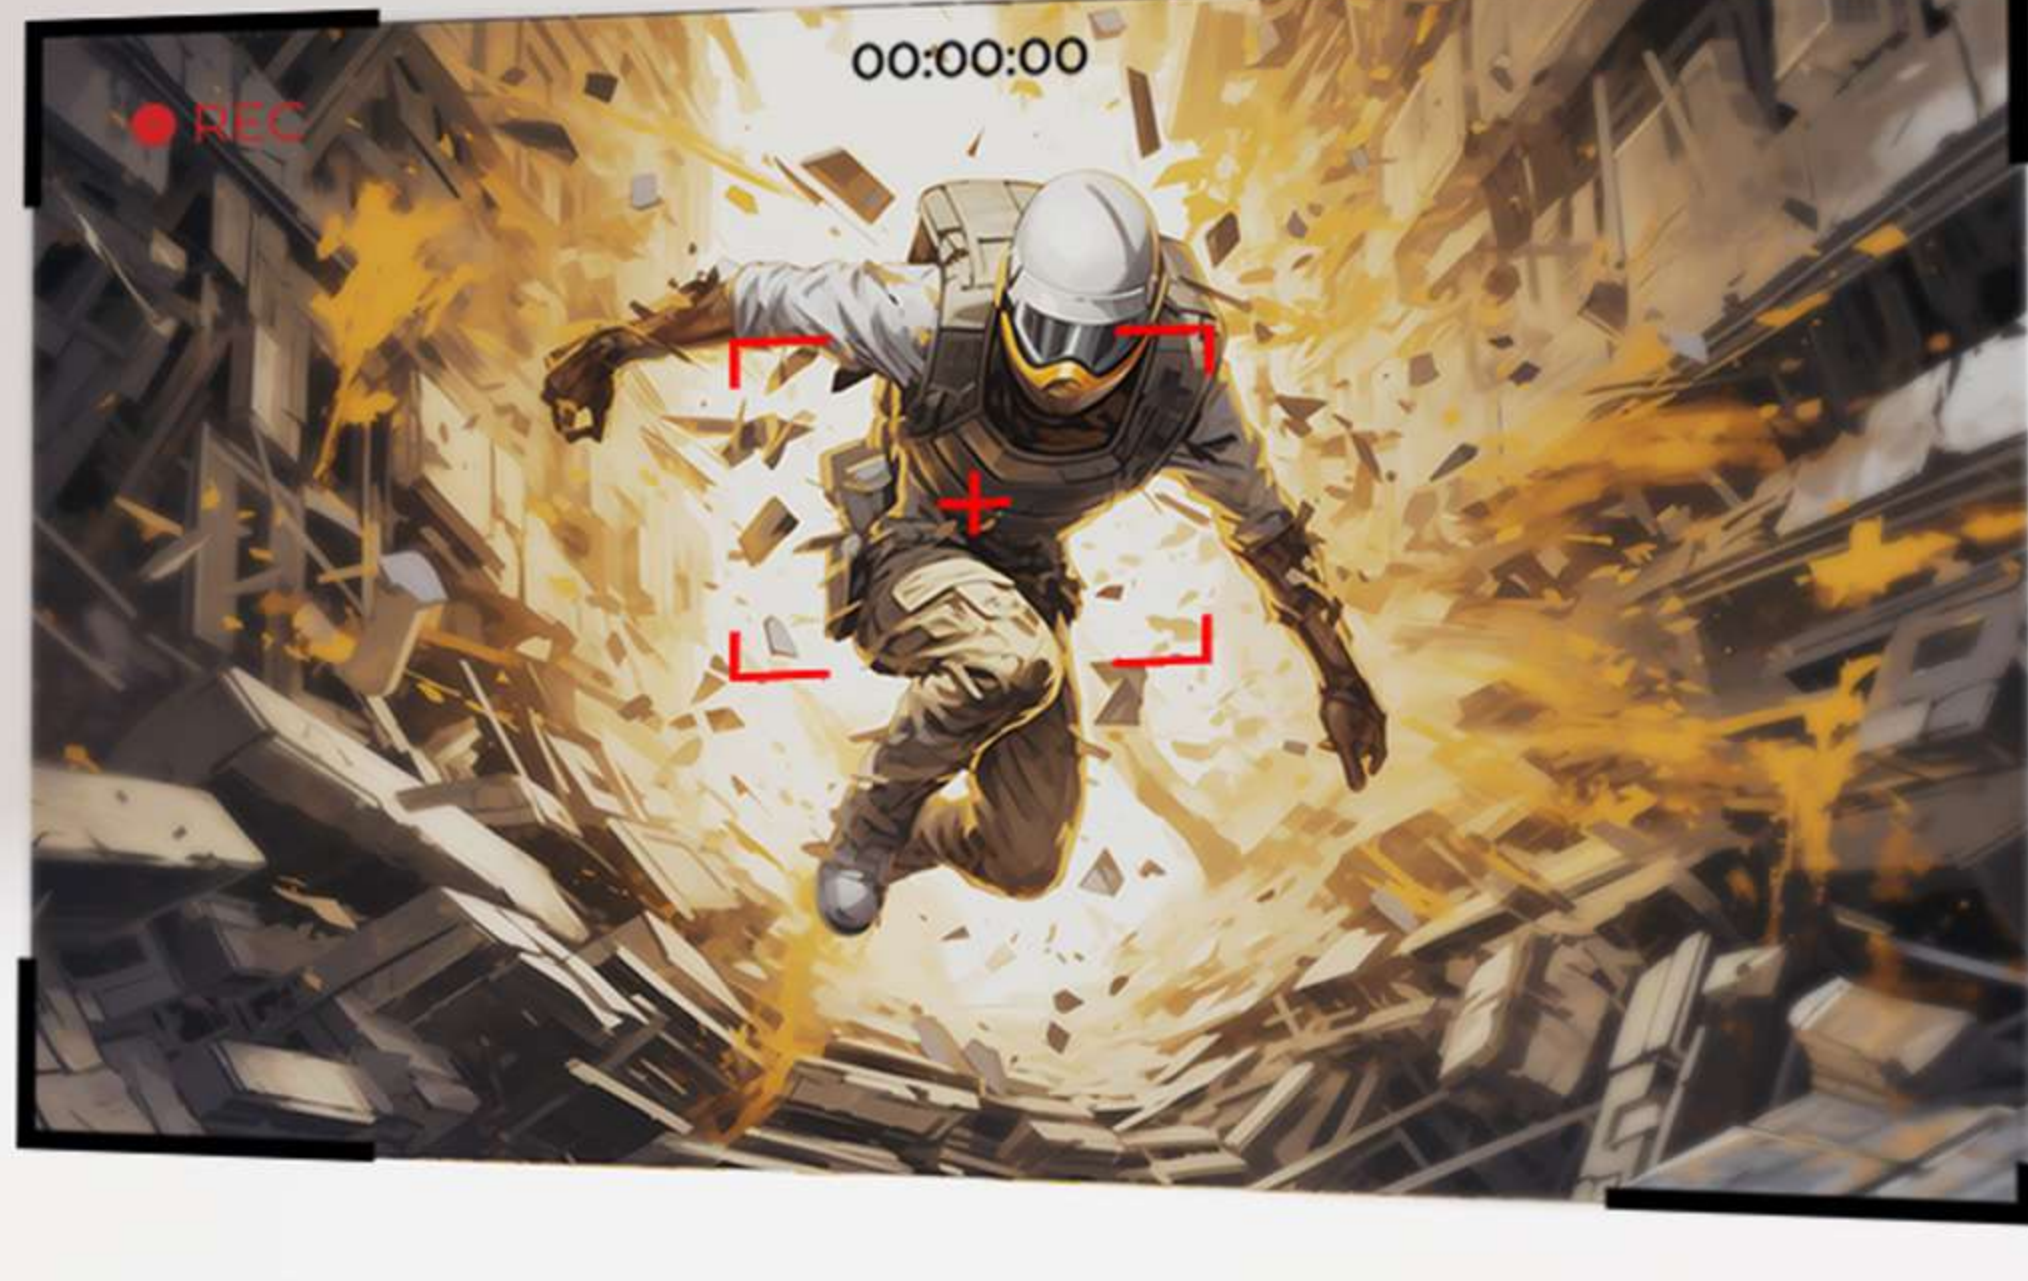

CRISP IMAGE, VIVID COLORS

This projector features 300+ ANSI lumens brightness, 1920*1080P HD resolution, and supports 4K projection, ensuring sharp images with vibrant, stunning colors.

Auto Focus

No manual adjustments are needed. It presents vivid and clear images within seconds.

Quick Image Adjustment

Auto Keystone Correction
Place the projector anywhere you like without the hassle of complex setups. It automatically corrects the image to ensure a rectangle image.

150 inch Designed for Your Viewing Needs

Its 1.2:1 throw ratio makes it suitable for projecting in most rooms, living rooms, or offices. Enjoy screen sizes between 40-150" for all your movies, shows, and video games.

1.2-3 m(40-150") Projection Distance

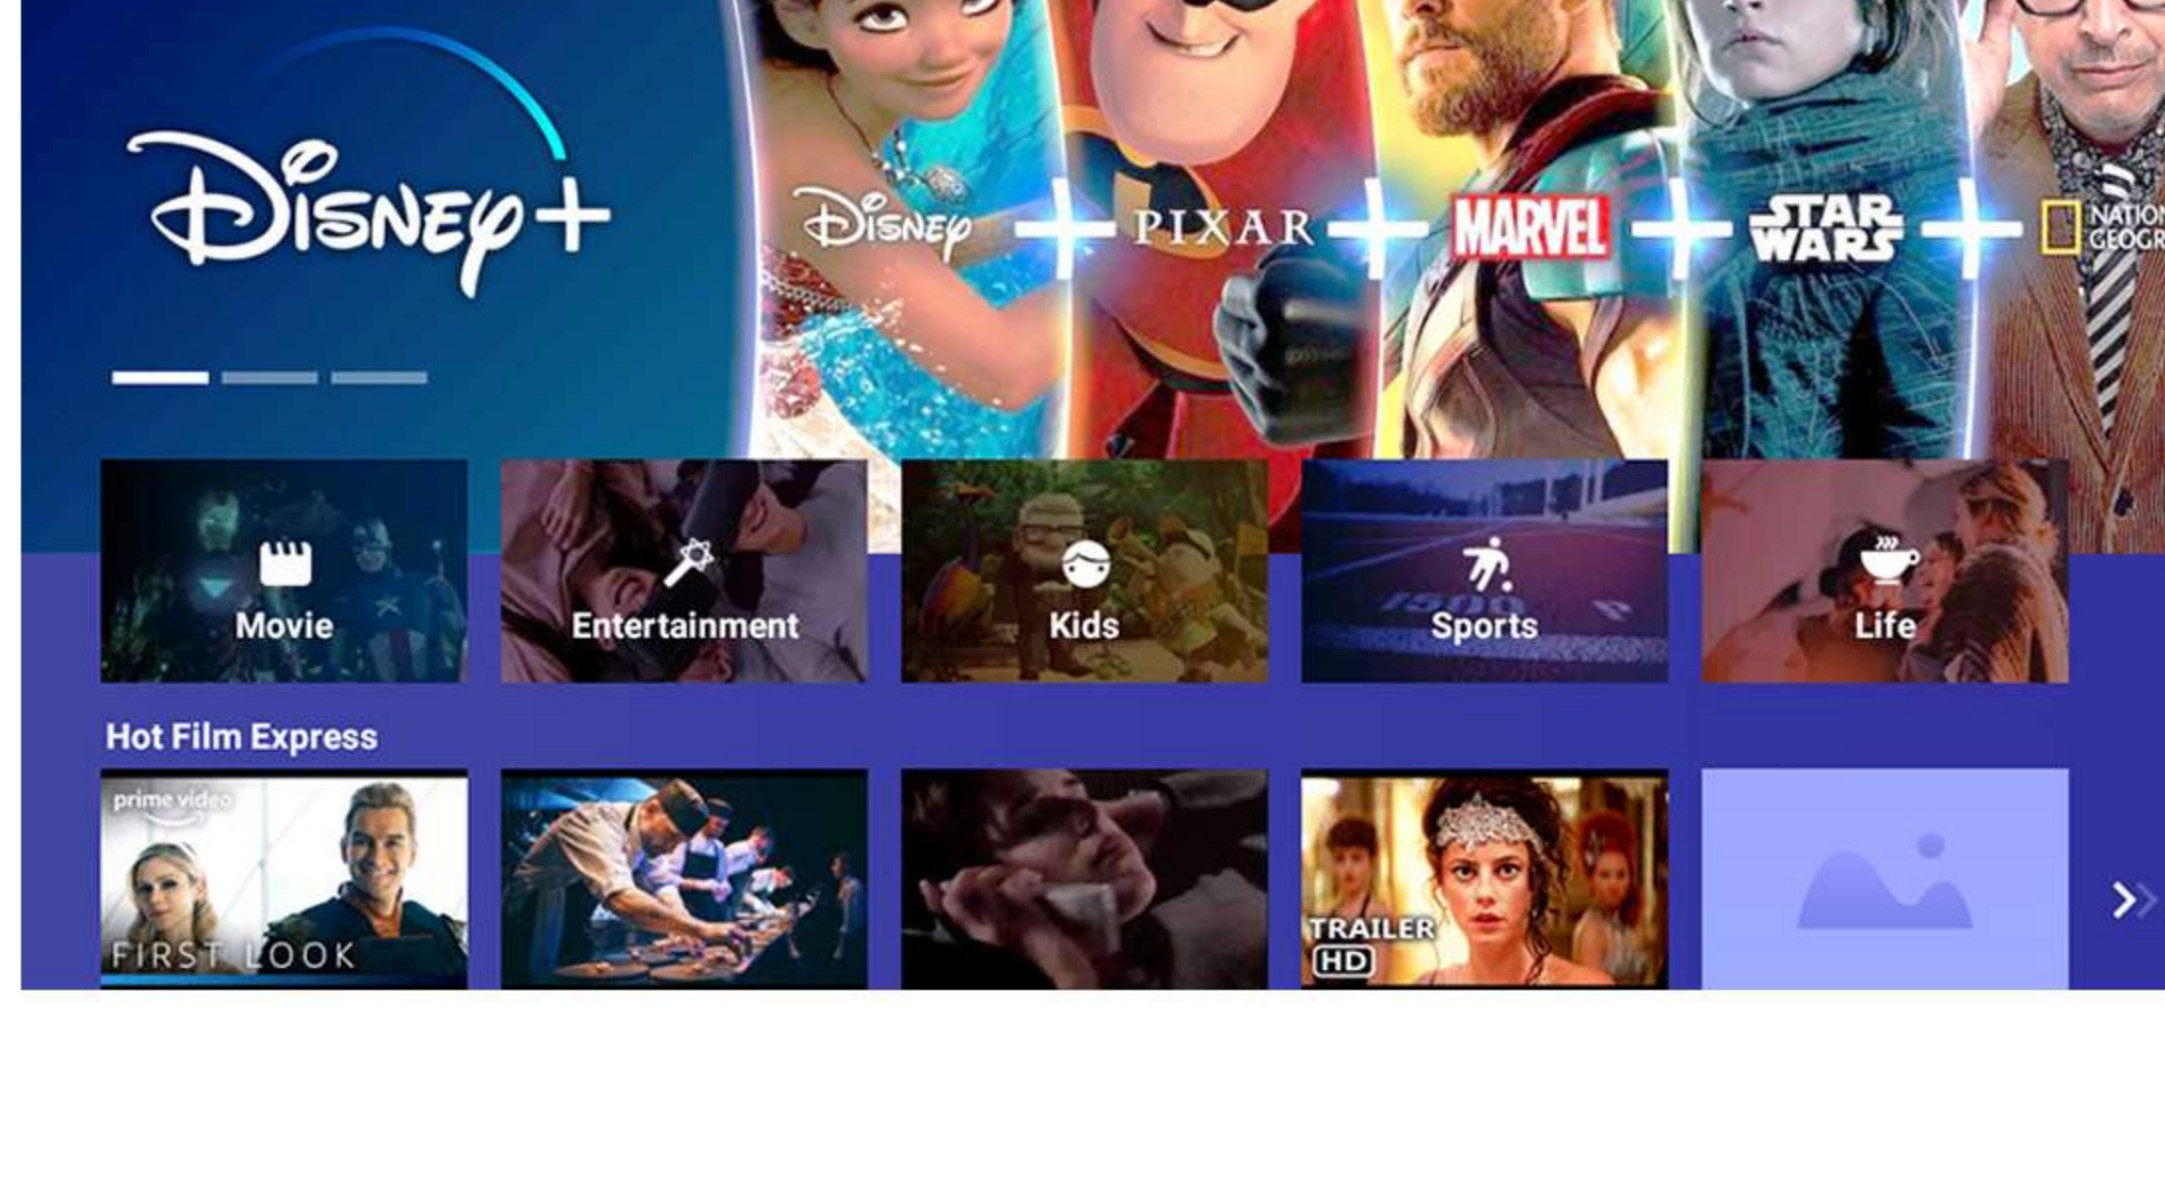

Stereo Sound

The projector uses a stereo speaker to create an immersive surround sound, providing you with an audio experience that rivals the quality of a movie theater.

Explore the More Entertainment on Android TV 9.0

The projector is pre-installed with a smart Android TV 9.0 system that can access online services, browse the internet, and run applications, such as video apps.

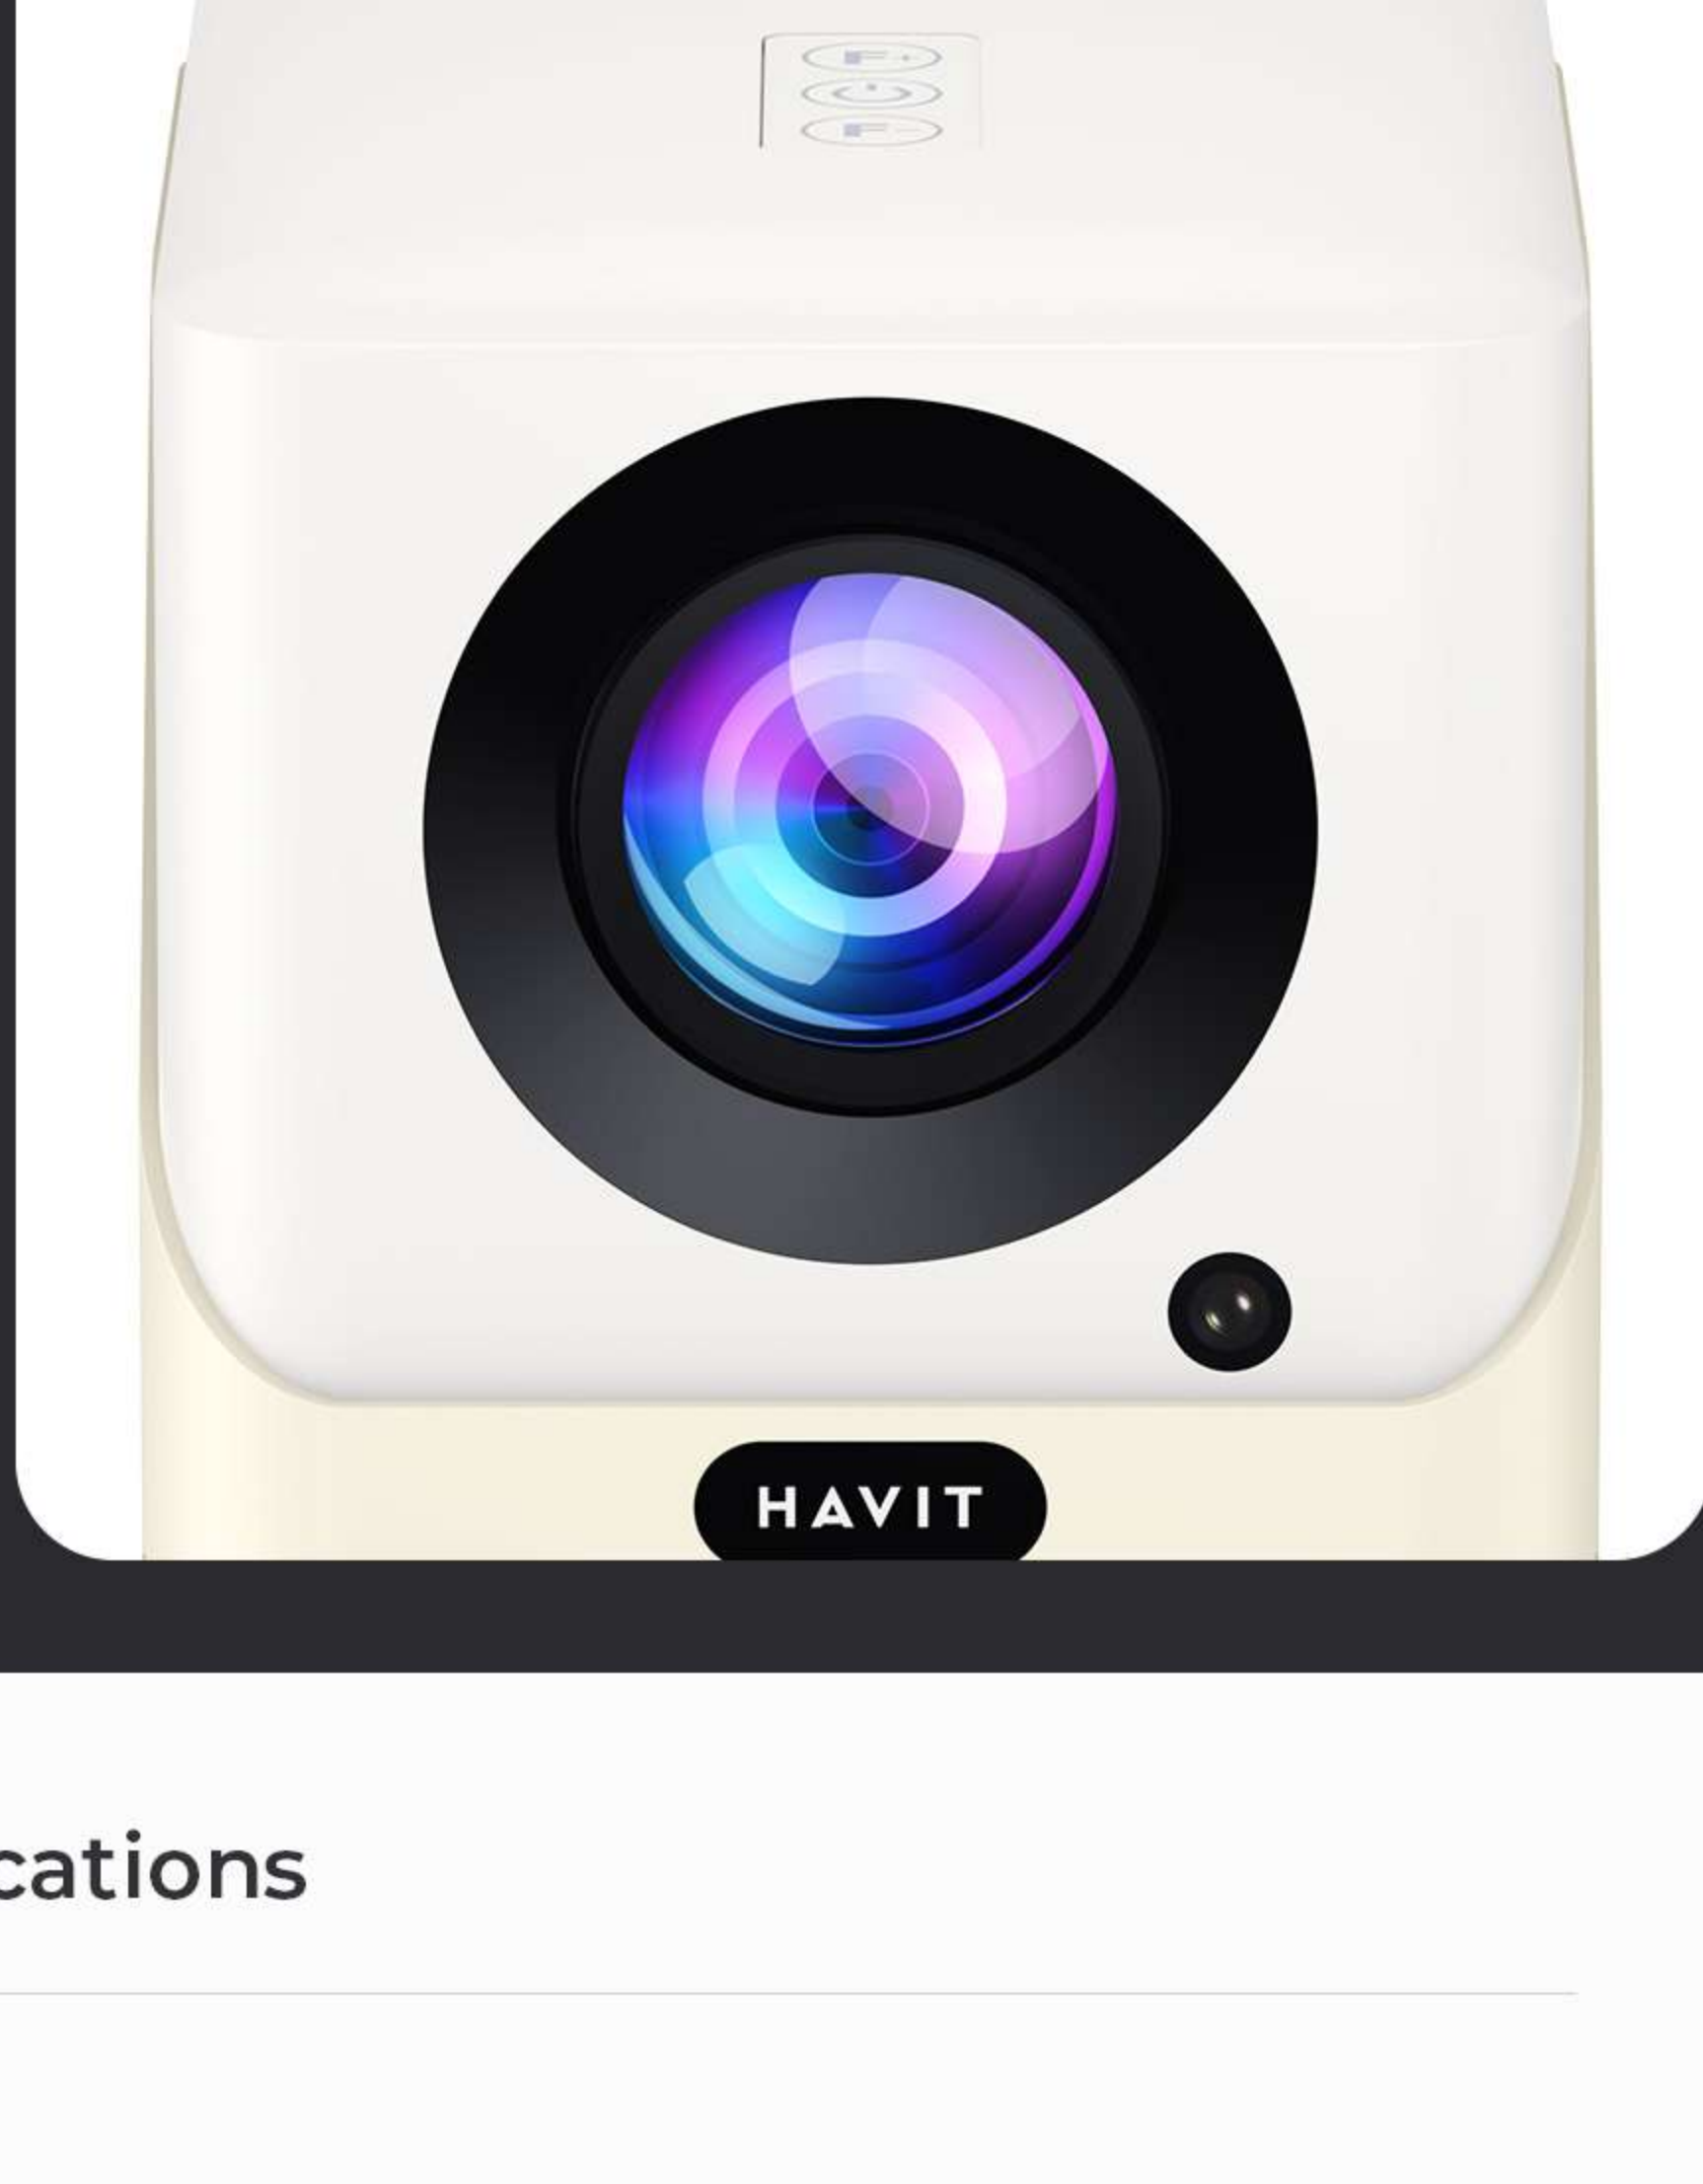

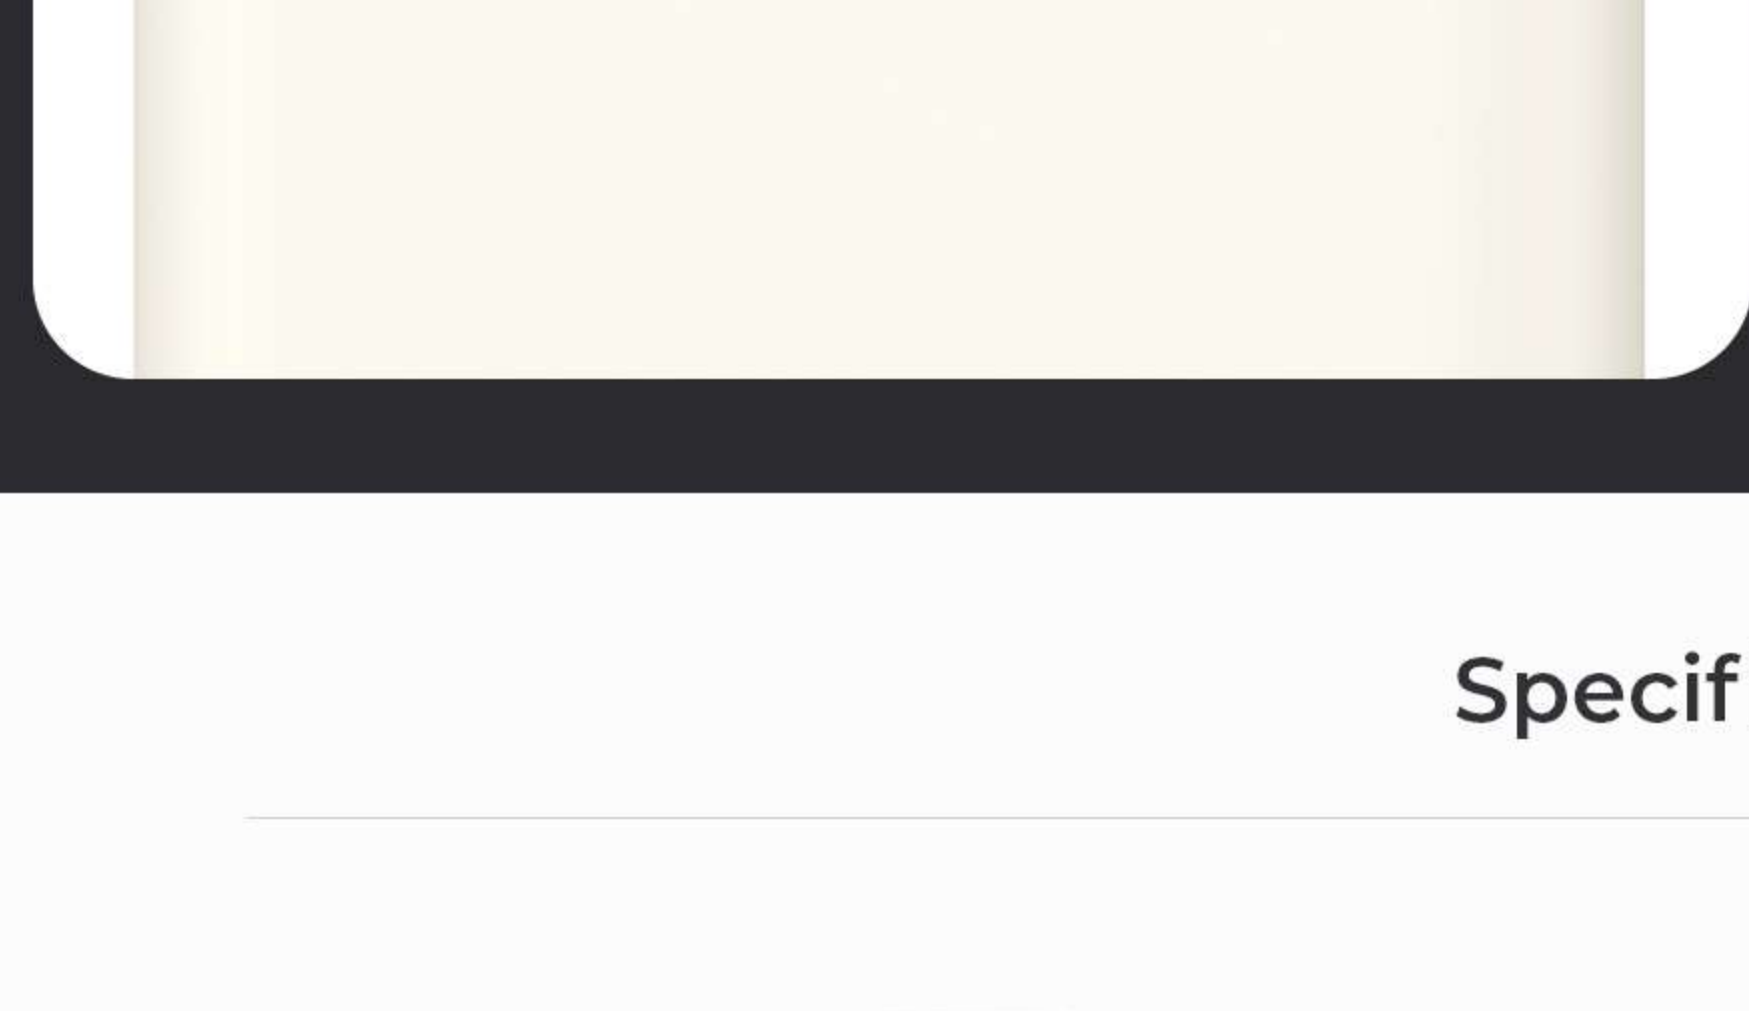

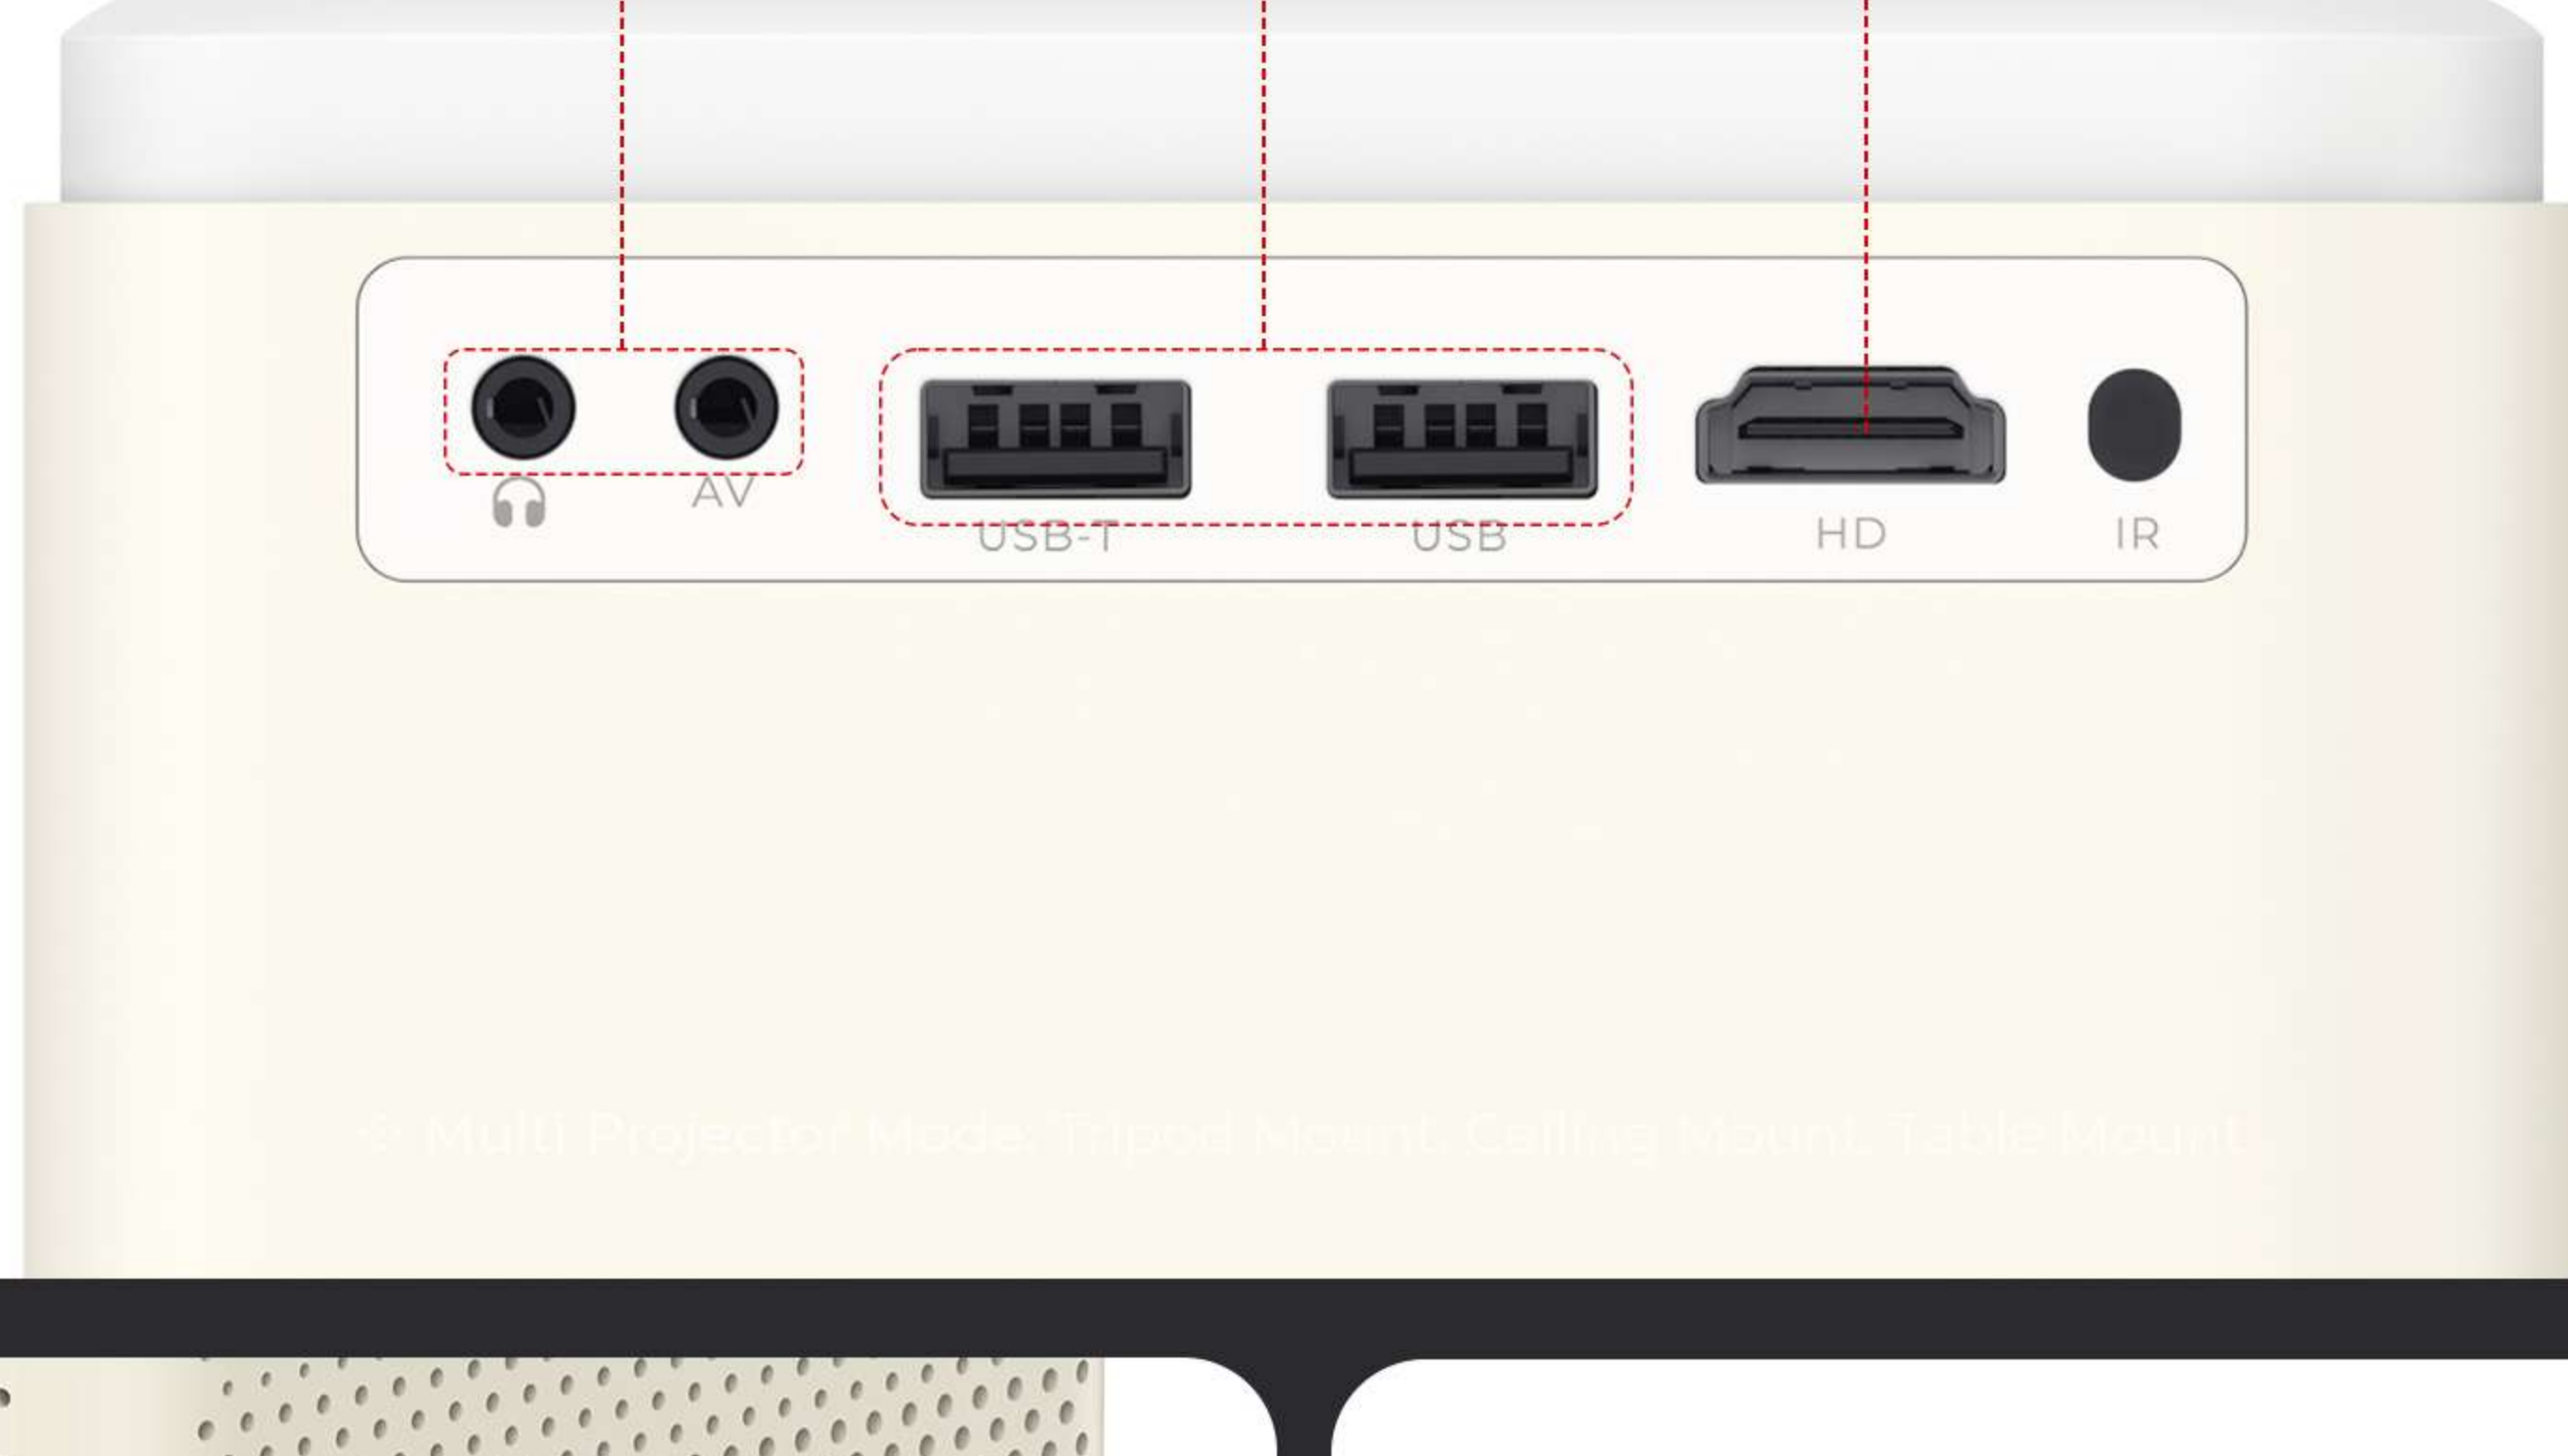

Wireless Projection

When your smart phone, tablet PC, and projector are connecting to the same WiFi, video can sync with the projector soon.

Multi-Port Connectivity

- AUX: speaker/headphones
- USB: mobile hard disk drive/USB flash disk
- HDMI-Compatible: TV box/Switch/PSS/computer
